SUMMARY

Frontend engineer with 10+ years of experience and Angular as my daily tool since 2019. I specialise in large frontends that have to scale across many apps and teams: Nx monorepos and shared libraries, CI/CD, design systems, SSR. Working as a sole proprietor and available for remote contracts.

EXPERIENCE

Jun 2022 – Present
Almaty · Remote

Frontend Architect · Lean Solutions

- Merged 10+ copy-pasted regional Angular apps (public portals and admin panels) into one Nx monorepo; ~90% of the code lives in shared libraries
- Features are written once and shipped to every region; launching a new region takes ~5 minutes
- Built GitLab CI from scratch; deploying to every staging app takes ~7 minutes
- Built a UI library and design system on Tailwind CSS v4 tokens; upgraded Angular 6 → 22 (signals, standalone, new control flow)
- Built a Canvas-based CT annotation tool with ML-assisted labeling (pilot) and live rail freight tracking over WebSockets (pilot)

Angular 22 · Nx · TypeScript · Tailwind v4 · Elf · Transloco · GitLab CI · case study

Apr 2019 – May 2022
Almaty

Frontend Developer · ChocoFamily

- Built the Chocolife.me redesign alone, from scratch, from Figma designs to production
- Angular Universal (SSR) so every deal and category page is server-rendered for SEO
- Built the Chocolife mini app for the Choco (Rakhmet) super-app webview
- Handed the codebase over to a junior developer for maintenance

Angular · Angular Universal · TypeScript · SCSS · case study

Sep 2018 – Mar 2019
Almaty

Frontend Developer · Technodom

- Nuxt.js (Vue SSR) storefront redesign prototype; discontinued by the client

Aug 2016 – Aug 2018
Almaty

Frontend Developer · BrandStudio

- 30+ corporate websites (Vue + Laravel, GSAP animations)
- Frontends for an internal social network and CRM (Vue CLI + Vuetify)

2015 – 2016
Almaty

Frontend Developer · GARCom, jNetwork

- Responsive markup, moving templates to CMS, technical support

PROJECTS

- markup: browser-based image annotation editor on Angular signals and the Canvas API
- az-way.com: portfolio, Angular with static prerender, 3 languages
- blog.az-way.com: technical blog on Hugo

SKILLS

Core	Angular, TypeScript, RxJS, Signals
Architecture	Nx, monorepos, design systems, SSR
Tooling	GitLab CI, Tailwind CSS, SCSS, Git
Also	Vue.js, Nuxt.js, Canvas API, WebSockets

LANGUAGES

Kazakh	Native
Russian	C2, full professional
English	B2, professional working

EDUCATION

Bachelor's, Information Technology · IITU, Almaty, 2015
